

Iced Earth "Vengeance Is Mine"

Visit "[Vengeance Is Mine](#)" on [MotoLyrics.com](#)

Hear now this story of the man that should not be
A ghoul of blackened torment, sullen atrocity
A kindred soul to the devils own, malignance
personified
Cast from his fire he molests the purest light

Profaner to humanity menaced by flesh and bone
Screams of the unknown youth to him the sweetest
tone
Undying in his will to kill his bloodlust is profound
For the blood of the lamb I've got to bring him down

Chorus:
For all the young lives you have slain
Fear now you shall obtain

Vengeance is mine
For every young one that has died
Your psychopathic genocide
Vengeance is mine

I shall do what the law won't do, I can make the
sacrifice
In the names of these bodies which held such precious
life
Mine is not to ask forgiveness this deed I've proudly
done
Without god without the devil this time I have won
