"The Mountain"

Do you remember the sea of our time?
The mountain I've seen...The mountain I've seen...
Talking about money, we sweep to Mexico
And though when there's a sun and a river
The mountain's song...The mountain's song...The
mountain's song...
The song to everything follow their way to the valley
And when does the summer avoids?
The mountain's song...The mountain's song...

Voice of the wind...Voice of the mountain's song...
Voice of the wind...Voice of the mountain's song...
