Searching for your salvation
Looking for what is true
You turn the pages hoping for a way to start anew
You hear, but you don't listen
Become another victim
I know you're fighting wars that never end

You got something to say now
You got something to say now, yeah
Go

I know you're falling apart
'cos your face shows a pain that is real
Drives you insane
Medicate
Now I think you've lost your brain
But I don't know where ya gonna go

I thought you learned your lesson
You're just another fool
You trip on raw emotion
Emptiness is now your tomb
A rat in your own prison
Lost faith before you'd risen
I know you're fighting wars that never end

You got something to say now
You got something to say now, yeah
Go

I know you're falling apart
'cos your face shows a pain that is real
Drives you insane
Medicate
Now I think you've lost your brain
But I don't know where ya gonna go

Where ya gonna go?
Where ya gonna go?
Where ya gonna go?
Where ya gonna go?

I know you're falling apart
'cos your face shows a pain that is real
Drives you insane
Medicate
Now I think you've lost your brain
But I don't know where ya gonna go
