CHORUS:

If you were dying
I would love you even more
If you were crying
I would kiss you even more

Why is it that you think I will leave?
I don't understand
Why can't you put your trust in me?
I will stay with you forever
I will stay with you like cancer

Don't you remember that day in the park?
How I loved you
How I loved you
You were lost lonely naked and pure
You were naked
And I kissed you
We made love in the tall green grass by the sandbox
Inside of you
The children watched giggling
The children watched giggling
How I loved you

CHORUS

If your brain was rotting I'd ask for advice
That would be nice
I'd visit you by your bedside
I would hold you
I would hold you
And when you were dead I would cry more than any
other
Even your mother and father
Hard to imagine I'd love you even more
Even more even more even

The grasshoppers played you a sweet sweet tune
The planets were swirling in respect of you
The birds were singing in the sky
I was so happy but I felt like crying

And God knelt down and patted me on the head
And he said
He said
La da da da da da da da
