I Clown Walk jump back with the beat
Greet em' with a step and a slap on the cheek
Foot work hear me squawk when I walk by
With your hawk eye you get a chalk line
I dance up and down steps when I gotta
Clown walkin on my hands I gotcha
Big love if you love that to
Walkin right past those fools doin the statue

When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
Step forth backwards shotgun let it off

I'm down
They call me showcase showoff
Sky whisky walks walk like a hawk
Freestyles for the chosin few
For me and my crew only pay per view
Caterpillar or electric boogie
They call me wall crawla crunk when I boogie
So crazy with the I'll behavior
Fresh flavor step with the majors

When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
Step forth backwards shotgun let it off
Put your right foot up! Stomp to the ground! Stomp!
180! turn it around!
Put your left foot up! Stomp to the ground! Stomp! 180!
turn it around!

Everything I'm big time super duper
Iv met my homie remy let me introduce ya
Walkin late for squares in fact it's deadly

She'd blood on the dance floor I aint frendly
Boom boom clap let the rhythm proceed
Boom boom clap from the iron in my sleeve
4:00 am roll around I had enough
But the tricks still flocked just to brush my shoes off

When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
Step forth backwards shotgun let it off
Put your right foot up! Stomp to the ground! Stomp!
180! turn it around!
Put your left foot up! Stomp to the ground! Stomp! 180!
turn it around!
When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
When you do the Clown Walk
That's how you set it off
Step forth backwards shotgun let it off
Put your right foot up! Stomp to the ground! Stomp!
180! turn it around!
Put your left foot up! Stomp to the ground! Stomp! 180!
turn it around!
