Man talking:

And this story just in from the wires of the associated  
press

The incidents of mental illness in the United States  
appears to be on the  
increase

\*He's losing his mind!\*

Strapped to the bed

Semi-conscious half in dead

Spit on the head-nurse and got brushed like I smacked  
a fed

Holdin' me down while the nurse brought me drugs

Took out the needle like Roc Raida and shot me up like  
Courtney Love

A fuckin' zombie on Haldon, look how I'm walkin'

Standin' around like crowd patrols in Boston

I'm running points, but the points not what my parents  
see

Remember me? I pulled out my dick in group therapy

Dust the gorilla till' they passed the Glock to Kong

And smacked around the ward and poured him a  
straight by Dr. Strong

Manic, depressed slashed chest keep a eye full

Sorry, lease on Prozac makes my COLER suicidal

No family visits at few

To the engine descending my fist on my stepdad's

faggot face for attention

And when a tear comes in the room like, what's the  
matter?

I'm eating the brownies mom made then smacking her  
with the platter

[Chorus]

Sample:

\*I wanna roll with the devil\*

Cage talking in background:

Nothing works here

I've been here for seven years

The medication don't work  
Nothing works here  
I've been here for seven years  
I hate this place

I'm starting to adjust  
Holding my dick to escape the lust  
Till' these girls in group, explain their rapes and busts  
Switched to jeans  
Conformness with a different theme  
My performance to my parents deserves a zipper meet  
And after a year when they ask me why I'm still here  
I'm like, this shit is college for my fuckin' rap career  
New bitch on the unit!  
Fine, fuckin' her first  
Put on suicide watch and jerk in front of the nurse  
Molested bitch which tend to love beatings  
Doing ant hills of dope thinking it's coke at drug  
meetings  
And when she starts to fucking seizure I'ma leave her  
By the freezer while I'm taking breeders of ether with a  
fever  
Jack the phone calling my friends fake faggots  
Kicking the nurse in her tits when they throw me a  
straightjacket  
That's what you get, dumb bitch, now you're crying pet  
While I'm waiting for the drugs to kick in like a dying  
vet

[Chorus]

I'm getting desperate  
I'm thinking my only exit  
Was jerking off in medicine cups and get this bitch  
pregnant  
I'm trying to make it through group with no jokes of  
shitting permitted  
Try signing yourself out and not getting committed  
My family sessions go great, with a slap to the mouth  
And my stepdad's like: "You ain't coming back to the  
house!"  
Look who's the better patient  
I went to rape the nurse in the nurse's station  
Broke in and tossed the medication  
On Thanksgiving I stuck my dick in the turkey  
And had the doctor on foreplay with my dick checking  
for herpes  
Doctor is strange, swinging the open locks  
Under a blanket while the whole unit tear me with soap  
and socks  
A solid child, plotting to vile it's style

Talking to a wife allow bile like Private Pyle  
Teen geek with a girl, looking to fuck her stuck out  
Holding my doctor hostage cause I can't get the fuck  
out

Man 1 talking:  
It's hollow!  
He's losing his mind  
That's the only explanation

Man 2:  
He's gone berserk  
The man is obviously a lunatic

Man 1:  
Deprived that his actions can only be described as the  
ravings of a mad man

Woman X3:  
The patient has shown no progress  
The medication is not working

Man 2:  
He's gone berserk  
The man is obviously a lunatic

Woman:  
The patient has shown no progress
