I've cleaned your favorite coffee cup
The one with the Beatles on
I've changed the sheets for when you come home
I've gotten used to sleeping all alone

How many times have I washed the floors
Keeping myself company
While you are out there busy making plans
Are you ever thinking of me?

I'm trying to fill the gap between you and me

Cause when I float into my darkness
You don't know what to do
And when you drift away and you're dreaming
I don't know
How to reach you

There are things we never talk about
Things we only lock away
The wall is up, we've built it high
Won't you come down here and just talk to me

And help me fill the gap between you and me

Cause when I float into my darkness
You don't know what to do
And when you drift away and you're dreaming
I don't know
How to reach you

I'm trying to fill the gap between you and me

Again I float into my darkness
You don't know what to do
And then you drift away and go dreaming
And I don't know
How to reach you
