"Embrace Of The Sun"

Visit "[Embrace Of The Sun](#)" on MotoLyrics.com

The animating light of the Universe strokes my face,

And my body begins to revive,

I'm floating around the magic Sun,

And my heart is full of gladness.

I'm taking delight in the sight

In the sight of the fullness of life.

I feel that the tongue of hotness lashes me,

The Sun doesn't admit me in his empire,

But forces me into endless spinning,

And pushes me into deep tumble.

Fate - Struggle- Greathness- Rising
