Deadly silence around  
All this sorrow, all the pain  
And I'm watching my teardrops  
On the ground

Fate is so cruel  
It's like a judge, without emotions  
Still it hurts so much to fall  
Without a sound

In the embrace of your soul  
Your heart told me the secret  
That forever you may go, you will be here  
Where do we go after we fall  
It is true that we will live on  
Our everlasting soul can find its home

Surrendered by the light  
Shining stars start to glow  
Somewhere a new life is dawning  
This is the way, I know

In the embrace of your soul  
Your heart told me the secret  
That forever you may go, you will be here  
Where do we go after we fall  
It is true that we will live on  
Our everlasting soul can find its home

And in the end of the road I will see you in the light  
Just hear my words before I let you fly

In the embrace of your soul  
Your heart told me the secret  
That forever you may go, you will be here  
Where do we go after we fall  
It is true that we will live on  
Our everlasting soul can find its home

And in the end of the road I will see you in the light  
Just hear my words before I let you fly

I don't say goodbye  
Just send to your dreams goodnight
