Well my wave length gets a little longer
Every time I wave goodbye
Sentimental break down
You know I break down and lie
Where I'm not supposed to lie my head
Always seems my softest pillow

Chorus

And as I board my plane
Something inside my brain
Hates to wave L.A. goodbye
L.A. goodbye, goodbye
L.A. I'm gonna see you 'round sometime
L.A. goodbye
L.A. I'm gonna be a 'round sometime
L.A. goodbye

Sunset strip and a field trip
Over to your hide away
Sunset Princess beckons and
We love the night away
Now I feel light years away
From the west side of Chicago

Chorus

And as I board my plane
Something inside my brain
Hates to wave L.A. Goodbye
L.A. goodbye, goodbye
L.A. wouldn't see you around now
L.A. goodbye
Can't you see the tear in my eye now
L.A. goodbye
L.A. stop to cry now
L.A. goodbye I'm going to see you around
