

Ides Of March

"One Woman Man"

I guess I'll always be a one woman man,
cause you do everything that one woman can,
and my roaming days are over, even before they
began,
and I guess I'll always be a one woman man.

All those other girls just don't turn me on,
with just one touch of your hand and honey I'm gone,
to a land that no one knows of, come take my hand,
and I guess I'll always be a one woman man.

I tried cheating, yes,
I've tired competing with the lovers around town,
the girls are willing, I find it unfulfilling,
I want to put them down, want to put them down.

The time has come to say I love you truly,
but there's just one little thing I'm beggin you,
be my little one and come take my hand,
and I guess I'll always be a one woman man,
and my roaming days are over, even before they
began,
and I guess I'll always be a One Woman Man.
