Every single part is alive,
The struggle for life is number one,
And I don't know if there's a goal.
If there would be a place for all,
Not sure,
That sharing is in the program.

I guess we've made it that way,
Blind and death to all the signs,
The ink washes out, easier than blood,
Nothing can stop me now,

Evolution evilution
It's evolution evilution maybe

The flowers always grow
After the cold
Flowers always grow

The flowers always grow
Under the sun
Flowers always grow

Evolution evilution...
