Hey you, won't you hear my call,
Hey you, I'm losing my soul
Don't leave me alone now
Hey you, cause I'm in a hole

Hey you, how could you help me
Hey you, my life is getting down
Hey you, I need more control
Hey you, one miss and I fall

The worst of my troubles could be gone away
And when I go shouting you should follow me
And if you wanna do it

Time has come today
No ticket to ride
Emotion is free

Hey you, and if you wanna do it
Hey you, time has come today
Hey you, no ticket to ride
Hey you, emotion is free
Hey you, and when you feel it how could you help me
Hey you, yes you, can get it
Hey you, but now, it could be now yes now
It could be now

The worst of my troubles could be gone away
And when I go shouting you should follow me
And if you wanna do it

Time has come today
No ticket to ride
Emotion is free

Hey you, now my head is filled up
Hey you, with new crazy dreams
Hey you, can't you see the dark side
Hey you, hey you, hey you
