I was wrong, I know by know  
I was wrong

I thought I could see but I was so blind  
I thought I could think but I had lost my mind  
I thought I could be with you I was alone  
I thought I could love but my earth was a stone

I was wrong, I know by know  
I was wrong  
Can't turn back the clock can't forget what is done  
I was wrong, I know by know  
I was wrong

I thought I could be happy I was just sad  
I thought I could be free with no borders no flag  
I thought I could hear the scream of my brothers  
I thought I could keep the peace and forget the anger

I was wrong, I know by know  
I was wrong  
Can't turn back the clock can't forget what is done  
I was wrong, I know by know  
I was wrong
