it's on the fridge,
not in my head,
20 second memory,
my name and age,
in case i forget,
in case i forget.
it's written on my hand, a few words to recall,
it's lost in my head, where's my home?
it's on the fridge,
not in my head,
20 second memory,
my name and age,
in case i forget,
in case i forget.
it's written on my hand, a few words to recall,
it's lost in my head, where's my home?
it's on it's on it's on i don't remember,
it's on it's on it's on, in case i forget,
it's on it's on it's on, it's on the table,
it's on it's on it's on, or in my pocket,
why i came out? i don't remember, gold fish memory.
please someone, take me home,
where's the street? what's the number ?
please someone, take me home,
what's the street? where's the number?
