Another lie another fake another day
Don't think you need a break,
It could all be a mistake,
Another day you need a break,

Get rid of it all,
Get rid of it, you don't need it,
You don't need it, you don't need,

You can't even show me who you are,
Became what you wanted to be,
Show me who you really are,
That's what we wanna see,

Another lie another fake another day
Without a try you need a break,
Maybe you're the real mistake,
Another day you need a break,

Get rid of it all,
Get rid of it, you don't need it,
You don't need it, you don't need it to live, (lev)

You hide behind your clothes,
I can't see the real you,
You hide behind a mask,
That doesn't belong to you,

Everytime i see your face,
I think you're lost in a maze,
Everytime i see your face,
I think you're lost in maze.
