

Burning Heads

"The Fuse"

Visit "[The Fuse](#)" on MotoLyrics.com

No one tells you when you're wrong
Keep on singing the song
Days and nights seem so long
The time spent trying all alone

Left or right direction
You will have to learn
Open our heart and listen
Wonders are all around

No one's really got a clue
What's inside of you
Better think for yourself
Dont expect more advice from me
I need some from myself

Find your way and your size
To exit from the maze
I got no more lessons to give
You got no more time to waste
And got only one life to live
You got to find the fuse

No one's really got a clue
What's inside of you
Better think for yourself
Dont expect more advice from me
I need some from myself
I got no more lessons to give
You got no more time to waste
And got only one life to live
You got to light the fuse
