Wherever you're going, it's the same old thing  
A slow revolution growing underground,  
In every city, it's come to its best,  
No one had seen the slow thing coming,

It's a simple plan, do you understand,  
No one saw anything coming,  
Good news for my friends, just take a stand,  
Changes are now just now coming,

The time has come, now it's everywhere,  
No one can stop what's in the air,  
The man think he's big, and he can control,  
But this time it's done he lost the ball,

Who wants to join ?  
These are things that have to happen,  
They're growing like roots,

Like mushrooms on trees,  
It's slowly taking place,  
And 10 years later, it's everywhere,

Who wants to join,  
It's a simple plan, do you understand,  
No one saw anything coming,  
Good news for my friends, just take a stand,  
Changes are now just now coming.
