By the harbour I harbor  
The strangest memories  
Older than I could ever be  
Stranded in nostalgia  
So tonight i'll try harder  
But it's hard to fix this spotlight on me  
In a cast that's taking places  
I'm not sure of where I want to be  
Stand up, stand up and stand out  
Applaud El Captain  
And jump up to cheers from the crowd  
Stand up, stand up and stand out  
And I hope you take your camera  
To photograph my tears as they hit the ground

No one even listens  
The same way that no one ever laughs  
I'm taking the car out of the snow  
I'm wondering where the summer went to  
Circled by your secrets  
I'm hoping that they don't include me  
At least I'm in good company  
Because there's no one else around except me

Stand up, stand up and stand out  
Applaud el captain  
Just to watch the world slow itself  
Stand up, stand up and stand out  
And I hope you took your camera  
The silence makes the loudest sound

It seems far too easy to say the same things  
I'll choose my own way to use my life up  
And finally I found a new way to say the same things in  
imaginary ways  
I use my life up

You were looking at pictures in the distance  
Hoping to see the future  
In your pictures of the distance  
Hoping to see the future

Looking at pictures in the distance  
Hoping to see the future  
Through your pictures of the distance  
Hoping to see the future

Looking at pictures in the distance  
Hoping to see the future  
In your pictures of the distance  
Hoping to see the future

Looking at pictures in the distance  
Hoping to see the future  
In your pictures of the distance  
Hoping to see the future
