Purple Sky, sky, sky
I am the night and this is your soul and
Purple in the sky, in the sky, in the sky
I am the night and this is your soul and
Purple lover, the lovers go out
Tonight in the night and this is your soul and
In the night I smack my smack my
I am the night and this is your soul and

I want you faster
I want you everyday
I want you faster
I want you faster and I'm going faster

There is a light, there is a light, and I approach the light
Cos I see the light and I know one day when the light
comes I will

Purple in the sky in the sky
Arghhh arghhh arghhh this is your soul and
Purple, Purple is the colour of
This is your soul and
Purple in the sky in the sky in the sky
I am the night and this is your soul and
Purple in the lover in the lover and the sad boy
I am the night and this is your soul and

I want you faster
I want you everyday
I want you faster
I want you faster and I'm going faster

There is the light there is the light there is the light

I want you faster
I want you everyday
I want you faster
I want you faster and I'm going faster
