Visit "[Annihilate Now!](#)" on MotoLyrics.com

when your alive now
or if your alive now
you're always ignored
so you sleep on the floor
you're above me now
above me now

Annihilate now
and now you late now

When you're alive now
or if you're alive now
I'm definitely not here just to have fun
you're above me now
above me now
When you're alive now
or if you're alive now

no one is here just to have fun
you're above me now
above me now

When you're alive now
or if you're alive now
i know you're supposed to do
things you don't want to do
why?

There's only one room at the end
there's only one room at the end
so let's pretend we're at the end
