"Finish It Remains"

The night begins
In early moments
No easy moment
Three of us are sitting up til dawn
There are no outskirts
To New York City

If I'm leaving...

Leave me gone
I only ask you 'cause
Time won't tell you to
Leave me gone
I only ask you when
Time tells you to stop

Stop the daylight
Coming pass the ending
Like a mixture of everyone in the world
We're all watching a film
Shown on gravestones
Of us leaving

And the journeys start
Only as the journeys end
And finished it remains
And finished it remains

Leave me gone
I won't ask you if
Time won't tell you to
Leave me gone
I won't ask you if
Time won't tell you to
Leave me gone
