All I can hear
Is another year it passed me by
They pass me by
They pass underneath
You know there's nothing to see here
Except 10 bridges
They pass underneath
You know there's nothing to see here
Except 10 bridges

'Cos when you're winning you're charming
But it won't

You have might have noticed
That i've fallen down on the road
It could happen to anyone
I know

They pass underneath
You know there's nothing to see here
Except 10 bridges
They pass underneath
You know theres nothing to see here
Except 10 bridges

'Cos when you're winning you're charming
When you're winning you're charming
When you're winning you're charming
It won't
