Listen to what you've got  
You listen to what you've got  
You listen to what you've got  
And then you realize that it's nothing

You listen to what you've got  
You listen to what you've got  
You listen to what you've got  
And then you realize that it's nothing, no

What's in these bad dreams?  
And I know your coming backwards  
What's in these bad dreams?  
You might as well be talking backwards

What's in these bad dreams?  
And I know your coming backwards  
What's in these bad dreams?  
You might as well be talking to yourself

And what you've got  
You listen to what you've got  
You listen to what you've got  
And then you realize that it's nothing

And what you've got  
You listen to what you've got  
You listen to what you've got  
And then you realize that it's nothing, no

What's in these bad dreams?  
And I know your coming backwards  
What's in these bad dreams?  
You might as well be talking backwards

What's in these bad dreams?  
And I know your coming backwards  
What's in these bad dreams?  
You might as well be talking to yourself
