

## Idlewild "Low Light"

Visit "[Low Light](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Turn the lights down when you cry  
Turn the lights down when you cry  
Turn the lights down when you cry  
Turn the lights down low

Turn the lights down when you cry  
Turn the lights down when you cry  
Turn the lights down when you cry  
Turn the lights down low

Turn the lights down when you cry  
Turn the lights down when you cry  
Turn the lights down when you cry  
Turn the lights down low

The lights are low  
The lights are low  
The lights are low  
A low light  
A low light  
A low light  
A low light

Turn the lights down when you cry  
Turn the lights down when you cry  
Turn the lights, just turn the lights  
'Cos you know the lights, the lights, the lights are low

The lights are low  
The lights are low  
The lights are low

You don't know, know, know, know, you should, you  
don't know  
You should, you don't know  
'Cos you don't know  
'Cos you don't know

Sad show, 'cos you know, it was the sure sign, it  
happened long ago  
Sad show, 'cos you know, it was the sure sign, it  
happened long ago

Sad show, 'cos you know, it was the sure sign, it didn't  
happen long ago  
Sad show, 'cos you know, it was the sure sign, it  
happened

Sad show, 'cos you know, it was the sure sign, it didn't  
happen long ago  
Sad show, 'cos you know, it was the sure sight, it  
happened long ago  
Sad show, 'cos you know, it was the sure sign, it  
happened long ago  
Sad show, 'cos you know, it was the sure sign, it  
happened long ago

Sad show, 'cos you know, it was the sure sign, it  
happened long ago  
Sad show, 'cos you know, it was the sure sign, it  
happened long ago

The lights are low  
The lights are low  
The lights are low  
A low light

It's the sign of it all  
I see the sign of it all and I know that you are with me  
now  
I know that you are with me now  
'Cos I now that, 'cos I now that, 'cos I now that  
'Cos I now that, 'cos I now that, 'cos I now that  
'Cos I now that, 'cos I now that, 'cos I now that  
'Cos I now that, 'cos I now that, 'cos I now that
