

Idlewild "Out Of Routine"

Visit "[Out Of Routine](#)" on MotoLyrics.com

Out of routine and the explanations you have
You're still loath to give them
All because you phrased them in a way
So the explanations you have
The words don't go away

If your heart gets in the way of what you wanted
To deny everything I say
Is not uncommon
The only thing that's definitely forgotten is what you
wanted
And what you really needed
But I can only try to know what I wanted
I will only try to know what I want
If I can only try to know what I wanted
How can it be gone?

Out of routine -- but it's not as bad as you think
Its only chance you're looking for
Still in routine
And the explanations you have
The ideas go between

If your heart gets in the way of what you wanted
If you reply to everything I say
Is not uncommon
The only thing that definitely forgotten is what you
wanted
And what you really needed
But I can only try to know what I wanted
I will only try to know what I want
If I can only try to know what I wanted
How can it be gone?

And it's already gone and nothing can take it back
Its already gone and nothing can take it...
