You're the worst I've seen one without a conscience
I've had enough of your kinds
Conducting symphony with your stick held up high
Repeatedly your dreams end up in a nightmare

[BRIDGE]

Denying evil is the start of it all...

Concept of loyalty is a total stranger
When you're reaching to the higher grounds
Burning bridges leave the past behind you
Disregarding morality ends up in disaster...

[BRIDGE]

Denying evil is the start of it all...

[CHORUS]

It's the dawn of the ancient war
No retreat, no surrender
It's the dawn of the ancient war
No looking back... the violence just begun...

Diminished capacity of the brain activity
Lacking respect towards another
Counting hits I laugh you'll never achieve it
Repeatedly your dreams end up in a nightmare

[BRIDGE]

Denying evil is the start of it all...

[CHORUS]

It's the dawn of the ancient war
No retreat, no surrender
It's the dawn of the ancient war
No looking back... the violence just begun...
