The war is over but the battle's just begun  
I met the devil's minion. It was case of hit and run  
It was time to do or die...

Giving up to my demons, mistake that I won't do  
Blinded by neon for a while I was a fool  
But now we have built...

Brave new empyre  
The untouchable, the unbreakable  
Brave new empyre  
Reaching new horizons  
Storming with defiance

Am I to blame from your imperfection  
It's truly a shame  
You gained nothing from the lecture  
And now it's all about

Brave new empyre  
The untouchable, the unbreakable  
Brave new empyre  
Reaching new horizons  
Storming with defiance
