Passion runs deep  
Like a fuel to the flames  
Burning its way to be free

Lake of desire  
Surging with dreams  
Shores of the damned torch my soul

All the way until the end  
We never break we never bend

Darkness of time  
Won't crush mighty will  
Absence of light makes it strong

Fenching your wealth  
Attracts thieves in the night  
Fire at will shoot on sight

Warrior's soul, brave from the heart  
Restless and wild, we never break apart

Eternal flame  
Burns forever  
Eternal flame  
Salvation will come
