I hear the voice calling out my name
Without a choice I have to live with this pain... deep
inside

I see myself as an image of the hurt
I locked you out... will I ever learn...
Will I ever learn... ?

[BRIDGE]

Stranger came - it brought me to my knees
Devil's game -- another day is deceased
Live or die - my options are growing short

[CHORUS]

The darkness reveals all it's secrets to me
From this unknown land that no one has seen
The beast will arise from the depths of my soul
It's the end of the Heart of gold

I sealed the fate when I try to ease the pain
And at the gates I bow my head down with a shame... I
can't take it
Anymore...
Out of focus- reality's swept away
Am I just a pawn -- in this devil's play... in this devil's
play

[BRIDGE]

Stranger came - it brought me to my knees
Devil's game -- another day is deceased
Live or die - my options are growing short

[CHORUS X2]

The darkness reveals all it's secrets to me
From this unknown land that no one has seen
The beast will arise from the depths of my soul
It's the end of the Heart of gold
