On my way to the promised land  
I got lost in the sidetrack  
Demons & angels  
Envy & hatred paved the way

Search and rescue the enemy  
Consequences from my aim to please  
Destiny's calling, wielding & holding the  
Two-edged blade

Under the Fire  
I stand, I crawl, I die  
Under the ageless burning fire

Sign my name under the cross  
Glorious  
Sign my name under the cross  
Glorious Victorious... Holier Than Thou

Tools of war in my hands  
Tame the mutiny, make demands  
Feeding & bleeding, always receding away  
From pain

Under the Fire  
I stand, I crawl, I die  
I'm crucified  
I rise, I fall, I cry  
Under the Fire  
I laugh, I weep, I lie  
Under the ageless burning Fire

Rest in peace, leave me be,  
the fighting goes on  
Say a prayer, avoid stare of eternity
