Visit "[Parasite](#)" on MotoLyrics.com

So vicious inside you're like rats in the underworld  
No places to hide there's no shelters you're looking for

[BRIDGE]

We'll condemn you to hell you will burn in our fire  
You're nothing like humans you're no more than a liar  
Your ass will be nailed to the crucifix of the truth  
We're safe from your lies WE'RE METAL you're just a fool

[BRIDGE]

We'll condemn you to hell you will burn in our fire  
You're nothing like humans you're no more than a liar

[CHORUS]

Neon parasite -- just crawl back to your hole  
Evil and so blind - you can't tell the difference of the  
right and wrong...

You denied all the facts, you're just crumbling in the  
dark  
We'll show you some light, we will leave our mark

[BRIDGE]

We'll condemn you to hell you will burn in our fire  
You're nothing like humans you're no more than a liar

[CHORUS]

Neon parasite -- just crawl back to your hole  
Evil and so blind - you can't tell the difference of the  
right and wrong...

[SOLO / Pete / Pekka / Pete]

[BRIDGE]

[CHORUS]
