### **"The Ignitor"**

We fed the flames of illusion  
Still keep coming back for more  
Realized the conclusion  
We're here to settle the score

Building empire of madness  
We manage to survive  
Rising up from the ashes  
The game of conquer,  
Conquer & divide

We are here to feed the fire  
Time after time  
The keepers of the burning pyre  
Night after night  
(The Ignitor comes)

Heaven turning to hatred  
Was the plan all along?  
Nothing is sacred  
Throne of chaos,  
Falling down so strong
