

If I Had Eyes "The Effect Of Flight Maneuvers"

Visit "[The Effect Of Flight Maneuvers](#)" on MotoLyrics.com

assembly is first and foremost
the key to a speedy production
remember bodies submerged into fluid receive a
lifting force
we'll build this boat like an airship
we are flying to war
an abundance of reinforced steel at half mast in the
crow's nest
pumping blood to the heart
a sea of red and we're on our way
a sea of red and we're on our way
it doesn't get any better than this
calm down, you're gonna be ok
we're going down
i can't believe we're still alive
oh god, the gear shaft is jammed
god help us

come on here we go
am i dreaming
come on here we go
did you lose your mind
i can't seem to feel my heart
this feeling is too much to bear
what a lie this life has been
