Bright lights, Houston is hot tonight
Arabian shieks and money, up in the sky
Now I don't mind, a bloodbath

When I've got oil, on my breath
[Unverified] eye to eye
Houston is hot tonight

My brain is tired of the wind
Chicago winters, just do me in
They've got a moon man, on the telephone

Project X, hey, Houston control
[Unverified] eye to eye, Houston
It's like, what's happening?

Houston is hot tonight
Houston is hot tonight
Houston is hot tonight
Houston is hot tonight

Houston is hot tonight
Houston is hot tonight
Houston is hot tonight
