feat Bethany Cosentino

Oh my my what have we done?
Guess we had a little too much fun
But what comes down, goes up again

Don't you worry about me my friend
I'll boot and rally, boot and rally, boot and rally, boot
and rally
I'll boot and rally, boot and rally, boot and rally, boot
and rally

The resist only made a mess of you
You wrecked your car and you cracked your tooth
Come and sing our sewer song
Whether we get loud and we get strong
Boot and rally, boot and rally, boot and rally, boot and
rally
Boot and rally, boot and rally, boot and rally, boot and
rally

Ah, boot and rally, boot and rally
Ah, boot and rally, boot and rally

Brother my brother, my oldest friend
á¹-ull yourself back up again
Don't you be no graveyard man
Time to finish what you began
Boot and rally, boot and rally, boot and rally, boot and
rally
Boot and rally, boot and rally, boot and rally, boot and
rally
Boot and rally, boot and rally, boot and rally, boot and
rally
Boot and rally, boot and rally, boot and rally, boot and
rally
Boot and rally, boot and rally, boot and rally, boot and
rally
