Robot doll is singing shit
Can't believe I'm watching it
Only misfits can escape
Stick 'em with the fucking stake

This is sterility, an emptiness like a dead tree
I hear the drum machine, I see the mask it bite the
ween
The big producer sits upon the mountain top of shit
This is sterility, I tell you people what I see

sick sick sick of the dumpster, baby
sick sick sick of your life.

now i'm here to tell the tale,
you live in a garbage pail
real truth is vulgar shit
that's how bad it fucking is
