I wrap my hopes in you  
I'm all in this for myself  
It's a chance i have to  
Take i'm in this for myself  
I wrap my hopes in you  
I'm all in this for myself  
It's a chance i have to  
Take i'm in this for myself  
It's a chance i have to take  
And this time i have to break  
I can't last another round  
And this time you've knocked me  
Out  
I wrap my world in you  
All you can think is of yourself  
It's a time i have to  
Leave i'm in this for myself  
I wrap my hopes in you  
I'm all in this for myself  
It's a chance i have to  
Take i'm in this for myself  
It's a chance i have to take  
And this time i have to break  
I can't last another round  
And this time you've knocked me  
Out  
I build my hopes you bring me  
I build my hopes you bring me  
I build my hopes you bring me  
I build my hopes you bring me  
I build my hopes you bring me  
I build my hopes you bring me  
I build my hopes you bring me  
I build my hopes you bring me down  
I wrap my hopes in you  
I wrap my hopes in you  
I wrap my hopes in you  
I wrap my hopes in you
