racing ahead the current
direction of the sea eagle
sea people massing for the attack
melt the ice and set the ship free
melt the ice and set the ship free

set the ship free (repeat)

molten lava burning in rolling river
thought energy flowing through the eyes
to pulse the power

we must go to meet it
use your strength push against them
use your strength push against them

sets the ship free (repeat)
you can scan the waves
but nothing moves
you can feel the breeze
go with the groove

the moment isn't right
the moment isn't left
the moment is a shining speck
against the sky

(repeat)

set the ship free (repeat)
