Say  
Cos they will always let you down  
Three packets  
Cos they will always get away  
?  
?  
Step down  
And leave it on the way

I can't see  
Well it compelled to me  
??  
And it can take it all  
Until the end

Until the end  
Until the end  
Until the end  
Until the end
