Video clip show  
Useless phone-in chat  
While radio rentals  
Will give a cheap deal to me

People amused by trained animal  
Confuse the hell outta me  
People amused by trained animal  
Confuse the hell outta me

You get 38 channels  
But you still watch the BBC  
And vain chat show guests  
Say plug me plug me plug me

People amused by trained animal  
Confuse the hell outta me  
People amused by trained animal  
Confuse the hell outta me

People amused by trained animal  
Confuse the hell outta me  
People amused by trained animal  
Confuse the hell outta me

Video clip show  
Useless phoney crap  
Vain guests  
Say plug me plug me plug me plug me

People amused by trained animal  
Confuse the hell outta me  
People amused by trained animal  
Confuse the hell outta me
