If you want some lovin' yeah
That I'll give to you
If you want some huggin baby
I can hug some too
All I want baby
Is some touch from you
Just a little bit attention
You know will see me through
Cause you know you're my kind
And I want you to be mine
I idolize you
I idolize you
I would like to make love to you
When the lights are low
I would like to scream to you baby
Just to let you know
All I want my baby
Is some touch from you
Just a little bit attention
Will see me through
Cause you know that you're my kind
And I want you to be mine
Oh what a thrill yeah
You know I would get
If I could comfort you baby
And make you my pet
All I want baby
Is some touch of you
Just a little bit attention
You know would see me through
Cause you know you're my kind
And I want you to be mine
Oh I idolize you
Yes I idolize you
I idolize you
Oh baby, I idolize you
