Freestyle from the Arsonists

To all you MC's, who don't already know this
Here's my word of advice, so take it as no diss
For your information, until it's further notice
I hope somebody quote this, too many brothers lose..

Now what's the use of rhymin when you can't, do what
you feel

You ready to sacrifice and sign your life just to get a
deal

They got you by the strings, when there's no creative
control

Dollars amount to nuttin when your body don't have a
soul

It's like, livin with no skeletal frame, you'd rather
settle for fame, and play the game instead of critical
acclaim

To floss, gettin this cheese it's understandable, to live,
suitable

But y'all forget that these monies is still recoupable

I know you got enough sense, to pay attention

No need to be a scholar to comprehend the facts about
the dollar

You follow trends, you drive a Benz and don't know
how to make ends

merge, and power surges knockin off your icebergs
Submerge into a slow death, the realm where you have
no breath

You find yourself, by yourself, with nothin left

Holdin a bad hand, and swimmin in a pool of card
sharks

Losin your record deal in all your reels you didn't top
charts

So catch my shutter speed, quick snapshot, my
steadycam

and
hold down the fort because they extort, before you
know it
you in court, for takin this rap game as a sport (then
play on)
So grab the joystick, and make sure that your voice
thick
Be on point, it's not always the joint your boys pick so
later for the yes men, cause you the best man
Forget the world cause it be stressin, settle for nothin
less than
Make sure you skills ain't nuttin to be tested in the
pocket
Deep like Steve Young, don't let nobody intercept
or cockblock like contraceptives, industry STAY
deceptive
Executive, decidin who they let live (so what gives?)
It's on you, the choice of who survivin
Cause once you sign, ain't no turnin back like skydivin
You live and you got clout, well here's a shout
Maintain balance with your talents
I take it pon myself to send this out
