And when I try to keep  
This hate I feel so deep  
The question grows and grows  
When sadness overflows

And when I try to hide  
Your touch I can't deny  
Each time you ask me why  
I raise my head up high

Exposed to your decision  
Withdrawn I turn to cry  
I can't complete my vision  
Forever afterlife

But now in my conclusion  
I fail in your illusion  
I walk towards transition  
Again I wonder why

Overcome I see the way  
Holding this moment  
When daylight never fades

Overcome with shades of grey  
Desire in motion  
The loss of yesterday

To all you expectations  
Indifferent I may be  
Does every situation  
Dissolve in front of me

To all your fates and fortunes  
Misguided you won't see  
If I could only torture  
This curse you've placed on me

Overcome I see the way  
Holding this moment  
When daylight never fades

Overcome with shades of grey  
Desire in motion  
The loss of yesterday

I wish that all will pass  
Nothing hangs over me  
I tried to make this last  
And keep my dignity

Replace all that we've lost  
Before you pay the cost  
I'm driven towards pain  
Back to the start again

Overcome I see the way  
Holding this moment  
When daylight never fades

Overcome with shades of grey  
Desire in motion  
The loss of yesterday

Overcome I see the way (2)  
Overcome with shades of grey (2)

Overcome I see the way (2)  
Overcome with shades of grey (2)

(Appolyon Version)
