Come closer
Come closer
Come closer to me now
Can't wait any longer
Come closer to me now

Ah hoo what you do to me X2

I can feel you in the air
When it's like you're everywhere
And the world can disappear
Just as long as you are near

Your smile is my whole world
Come closer to me now
I've waited forever
Come closer to me now

Ah hoo what you do to me X2

Now you got me in your spell
It's the best I've ever felt
Feel you breathing in my soul
Cause I know you're heaven sent

Take all of my senses
Come closer to me now
I've got no defenses
Come closer to me now

A hoo what you do to me X2
