It's now or never  
I lay it on the line  
Even though your pushing me away (away)  
Feeding my desperation  
There's nothing left inside  
Can't see, the best is yet to come

Don't need your complications  
We hear it every day  
Can't follow your direction  
You know its killing me  
Would explain, I'll disappear  
Don't need your complications  
Don't need you anyway

Question the silence wasted  
Can you hear it in the air  
Pretend to understand  
Attention Conversations  
I'm grabbin at the walls  
Can't see, the best is yet to come

Don't need your complications  
We hear it every day  
Can't follow your direction  
You know its killing me  
Would explain, I'll disappear  
Don't need your complications  
Don't need you anyway

Needing a little more time  
Your pushing me away  
Needing a little more time  
Your pushing me away

Don't need your complications  
We hear it every day  
Can't follow your direction  
You know its killing me  
Would explain, I'll disappear  
Don't need your complications

Don't need you anyway

Don't need your complications

We hear it every day

Can't follow your direction

You know its killing me

Would explain, I'll disappear

Everytime
