And when I try to keep
This hate I feel so deep
The question grows and grows
When sadness overflows

And when I try to hide
Your touch I can't deny
Each time you ask me why
I raise my head up high

Exposed to your decision
Withdrawn I turn to cry
I can't complete my vision
Forever afterlife

But now in my conclusion
I fail in your illusion
I walk towards transition
Again I wonder why

Overcome I see the way
Holding this moment
When daylight never fades

Overcome with shades of grey
Desire in motion
The loss of yesterday

To all you expectations
Indifferent I may be
Does every situation
Dissolve in front of me

To all your fates and fortunes
Misguided you won't see
If I could only torture
This curse you've placed on me

Overcome I see the way
Holding this moment

When daylight never fades

Overcome with shades of grey
Desire in motion
The loss of yesterday

I wish that all will pass
Nothing hangs over me
I tried to make this last
And keep my dignity

Replace all that we've lost
Before you pay the cost
I'm driven towards pain
Back to the start again

Overcome I see the way
Holding this moment
When daylight never fades

Overcome with shades of grey
Desire in motion
The loss of yesterday

Overcome I see the way (2)
Overcome with shades of grey (2)

Overcome I see the way (2)
Overcome with shades of grey (2)

(Appolyon Version)
