An enemy who hides close to you
Deceived by what could not be true
There is a part of me that keeps me lonely
Did you see that part of me

As the lights begin to fade
As my consciousness regains
For a moment I've been saved
From

There is a part
That keeps me away
Am I too close
That now I must stay
There is a part
That keeps me lonely
Am I too close
Too close to turn away

There is this stranger I have become
In touch with the other side
A part of me I'm not coming out
A part of me you did not see

As I awaken from my sleep
As this place holds no retreat
For this vision I shall keep
From

There is a part
That keeps me away

Am I too close
That now I must stay
There is a part
That keeps me lonely
Am I too close
Too close to turn away

As I turn and loose my way
As this memory slowly fades
For a moment I've been saved

From

There is a part
That keeps me away
Am I too close
That now I must stay
There is a part
That keeps me lonely
Am I too close
Too close to turn away
