I met you just tonight
But i keep wonderin why
It seem's i've always known you all my life
I've held you only once
But i keep wonderin why
It seem's i've held you forever

Can it be true
Could i be wrong
That somewhere in my past
I fell in love with you

Can it be true
Could i be wrong
That somewhere in my past
There was also me and you

I kissed you only once
But i keep wonderin why
It seem's i've kissed your lips so many times
I know your only now
But i keep wonderin why
It seem's i've known you forever

Oh yeah
Ah-ha

I love you only now
But I keep wonderin why
It seems i've loved you forever

Somewhere...
There was you and i...
Somewhere...
