Please don't go into the kitchen
That's where the knives are
And I won't be held responsible

They won't make me out to be
The monster you made me become

I'll sleep in our bed tonight
Where you once slept with her
A good night's sleep for once
And one for you, forever more
I'll sleep in our bed tonight

Please don't go into the kitchen
That's where the knives are

You did me wrong
And now it's time to put things right
I need you like I need a hole in the head

I will sleep in our bed tonight
Where you once slept with her
A good night's sleep for once
And one for you, forever more
I will sleep in our bed tonight

You can have the kitchen floor
I will sleep in our bed tonight
Where you once slept with her
A good night's sleep for once
And one for you, forever more
I'll sleep in our bed tonight
